

# Carl Zeiss Medical Software GmbH

[1]

Carl Zeiss Medical Software GmbH (CZMS GmbH), a subsidiary of Carl Zeiss Meditec AG, specializes in the development of medical software solutions. This Munich-based subsidiary provides Carl Zeiss Meditec AG with the resources and know-how necessary for providing its customers in future with cross-platform software solutions in the areas of ophthalmology and neurosurgery, among other fields.

“Method Park Software AG assisted CZMS GmbH by providing trained personnel to carry out quality assurance measures for the developed software. These measures focused on planning and carrying out system tests on a high-tech device in the area of neurosurgery. With this work, Method Park played a key role in ensuring that the high quality demands were observed.”

Falk Hartwig CEO

Carl Zeiss Medical Software GmbH
